DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Vennard et al (USPN 3,779,241). Vennard et al disclose a device comprising an expandable body 10 including an internal restraint 24 which can best be seen in Fig. 4A. “The internal restraint 24 prevents excessive thickening of the device”(col. 4, lines 36-37). The internal restraint 24 also directs the expansion of the body 10 and “it is understood that the final shape of the device of the present invention will be determined” “in part by the length of the restraint 24” (col. 4, lines 54-58).

Allowable Subject Matter

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 10-37 are allowed.

Response to Arguments

Applicant's arguments, see page 8, filed 10/16/03, with respect to Claims 1-37 have been fully considered and are persuasive. The rejection of Claims 10-37 has been withdrawn.

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
